

To Whom it May Concern,

It's my pleasure to recommend **Andrii Plakhotin** as **UI/UX Designer** or **Product Designer**. I've worked closely with Andrii for the past 6 months, was one of the people who took part in his hiring process, mentored and supervised him later on.

I really enjoyed our time working together during which Andrii showed great variety of professional and personal skills. He is a highly motivated and talented designer who adapts fast, is always eager to learn new technologies, discover current trends, and follow high standards of the industry.

Andrii has a thoughtful analytical mindset and likes to get to the root of user problems. His design solutions are inventing and creative. During the time we've worked together, even though it has been relatively short, Andrii has contributed greatly to the development of our product, his fresh ideas have been a really valuable asset to the team.

Andrii is a very responsible person, he is attentive to details, and always sticks to the product timeline. He is very easy to deal with inside the team, has strong communicative skills, can always explain well his ideas and solutions, asks the right questions to dive deep into the complexity of the product. Andrii showed initiative and was always ready to new challenging tasks.

I highly recommend Andrii as an addition to your Design Team. I would gladly work with Andrii again, and I'm sure a great career is awaiting for him! Please feel free to contact if you have any questions.

Sincerely,

Anna Kostiaieva

Lead UI/UX Designer
